StrongBlock Ethereum nodes give 0.1 \$STRONG per 7,000 Ethereum blockfinds, figures above are based on the total number of blockfinds over the last 24 hours on 9th September 2021: 6,468. Sentinel nodes have just launched on StrongBlock, but it is not clear how the rewards will differentiate at the time of writing. This summary will be updated as and when this info is

* APR is not simple to calculate given the monthly cost (paid in \$ETH) and variable nature of \$ETH gas fees which can inflate that cost. Also, you have to allow for the 10 \$STRONG + \$ETH gas fees creation cost which lops about 102% off the APR in the first year.
